```
C:\WINDOWS\system32\cmd. X + -
Microsoft Windows [Version 10.0.22621.674]
(c) Microsoft Corporation. All rights reserved.

C:\Users\vasee>python
Python 3.11.0 (main, Oct 24 2022, 18:26:48) [MSC v.1933 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license" for more information.
>>> print("Hello world")
Hello world
>>>
>>>
>>> quit()

C:\Users\vasee>pip --version
pip 22.3 from C:\Program Files\Python311\Lib\site-packages\pip (python 3.11)

C:\Users\vasee>
```

The screenshot shows a Windows 10 desktop with a taskbar at the bottom. The taskbar includes the Start button, a search bar, and several pinned application icons: File Explorer, Settings, Edge, and others. The system tray on the right shows the date and time as 08:38 AM on 12-11-2022, along with icons for network, volume, and battery. The background of the desktop is a light blue gradient. The Command Prompt window is open, displaying the output of several commands: running 'python' shows the Python 3.11.0 version and environment; running 'print("Hello world")' outputs 'Hello world'; running 'quit()' exits the Python interpreter; and running 'pip --version' shows the pip version 22.3 installed for Python 3.11.
